## GOLD IN THE BLACK HILLS.

WASHINGTON, August 19 .- Prof. Janrey, in a letter to the Indian bureau, dated in the Black Hills, July 31st, says that he found gold in placer deposits on both Spring and Rapid creeks, from their headwaters to where they emerge from the hills; and more extended visits and explorations show that in localities in the valleys of these streams the gravel bars-especially those of the older formation and elevated above the present San Francisco, August 17: The bark level of the streams-contain gold in quantities sufficient to yield a fair remorning. > SECOND DISPATCH. NEW YORK, August 19 -The Times has a special from Augusta, Georgia, about the reported-attempted insurrec-tion of the negroes. It says that two days since a letter was found at Williamson's store, in Washington county, the place where the colored militia company drills, ordering a massacre of the whites on the twentieth instant. The militia general of South Carolina, would be present and direct the movement. The order said kill every white man, and take every gus you can get; have all your companies ready; kill with axes, hoes and pitchforks, and get gunpowder and shot as you kill. After com-mencing the work in Washington county, the negroes were directed to move toward Barlow, in Jefferson county, where they would be joined by General Rivers. At first many thought this a hoax, gotten up for the purpose of scaring the whites, but yesterday a letter was found in Jefferson county, directed to colored companies, and giving sub-stantially the same instructions. The whites then, apprehending danger, telegraphed to Macon for ammunition, which was promptly furnished and diswhich was promptly furnished and distributed to the local companies. Every preparation was made for the conflict, but measures were also taken to prevent the collision, and by dark this evening eighty negroes, charged with being ringleaders in the movement, had been arrested. It is alleged that the correspondence exptured indicates the existence of a conspiracy among the negroes, extending through the counties of Washington, Jefferson, Johnson and Burke. It is now feared that the whites will not wait the process of law, but will lynch the prisoners. Moderation is counseled, but fears for the worst are entertained. Many believe the affair has been greatly exaggerated, and that no mischief was robed gents. Great excitement still preintended. A letter somewhat similar valls around Benton. FIFTH DISPATCH. AUGUSTA, August 19 .- A dispatch from Burke county reports all quiet up to eleven o'clock to-night. The people are confident in their ability to suppress any attempted insurrection. The ringleaders will be arrested. The exitement is subsiding. The negroes have no cause for the contemplated rising, for all the trouble was caused by a few worthless, turbulent and designing negroes, who live upon the charities of the colored people. The whites will act o arrest the ringleaders for conspiracy, who will be tried at a special term of the superior court. Indian Union Agency. MUSICOGEE, IND. TER . August 19 -The cers monies of the laying of the corner-stone of the Union agency building for the five largest nations of the Indian Territory-the Cherokee, Choctaw, Creek, Chickssaw and Seminole tribes -took place to-day at Prospect hill, near this place, in the Creek nation, under the auspices of the Grand Lodge of Masons of the Territory. Deligates were present from Missouri, Kansas and Texas and from different parts of the Terri-tory. The best of feeling prevailed. Speeches were made by Colonel Ross, the Cherokee chief and E. C. Boudenot, in English; by Sam L. Cheate, chief of the Creeks, in his native tongue, which was interpreted. The remarks were eloquent, breathing good will on the part of the Indians and a desire to fulfill all their treaty stipulations and to cultivate closer relations with the people of the United States. The impressive ceremoorder was signed by a man named Har-ris, and stated that Rivers, a colored ed by Rev. J. S. DuQuoin, August 18.-The latest news from the seat of war in Franklin county was brought in by a back-driver, who arrived here from Benton this af-ternoon. Two arrests have been made since the fight of night before last. The names of the parties arrested are Green Cantrell and Aaron Neil. Both men live in Franklin county, in the vicinity of Benton. Suspicion was first aroused, which led to the arrest of Cantrell, by attention being attracted by parties go-ing to and from his honse carrying ice, and by seeing the doctor visit his residence. These facts were made known to some of the officials, who, on enter-ing his house, found Cantrell in bed seriously wounded. The wounds, no doubt, are the fruits of his last encounter with the sherfif and his party. The other man, Neil, is rather an unimportant member of the kuklux band, but Cantrell is supposed to be an active kukiux and a member of some importance. His arrest was the cause of great excitement, as no one suspected him ing them all to justice.

FULL STATEMENT OF THE CASE. New York Times. Washington, August 16 .- The ac- the mainmast; the Alberta rode comounting officers of the treasury admit that gross irregularities in the quartermaster's department of the marine corps have occupied their attention recently. and that the charges made in the Chronicle of to-day are substantially correct so far as they relate to the purchase of ma-terial and the making of uniforms. They will not state the amount of the defaication, but intimate that it is even larger than the figures named in the Times dis-patch of yesterday. The second comp-troller thinks there will be no loss to the government, as the boudsmen of the offenders are abundantly able to make good the deficit. No criminality attaches to Major Slack in the clothing transactions. The materials were purchased at Philadelphia from Barnum & Brother, who also made up Barnum & Brother, who also made up injured, was carried to the house of the the uniforms. Captain Maddox is the admiral, at Portsmouth. The following inspecting officer at Philadelphis. His duty is to examine and certify that the bills forwarded for material and work are proper. In this case Captain Maddox certified that he had personally investigated that he had personally investigated the formal that the Alberta was crossing the Solent with the queen and family on board, a sailing yacht ran under the Alberta, sonally inspected the material, and found them in quantity and quality as stated in the bills forwarded to Major Slack, who, thereupon, paid them upon the approval of General Zeilin. It has the approval of General Zeilin. It has board, but it is to be feared that two been ascertained that the statements have been lost, besides those who were from Maddox were fraudulent, and that large sums were thus obtained for goods not furnished. It is possible the state-ments were made by Maddox without knowledge of their real character. When gave orders to Admiral Elliott to spare

the question of responsibili-ty is determined, legal pro-ceedings will be instituted by the government. Upon discovery of the frauds steps were taken to proceed against Barnum & Brother, and of this they were apprised. A short time ago the senior Barnum took passage at New York for Fall River. On the trip he disappeared mysteriously, and has not since been heard of. His watch and some clothing were found in his state-room. A few days after the disappearance, the other Barnum, who was suta card to-morrow, in which he says: "I termaster's office with my knowledge, and feel entirely satisfied that with

otherwise, that declaration will be believed.' HOW A FRAUDULENT BILL FOR \$23,000 WAS APPROVED AND PAID. Washington Evening Star.]

From facts derived from the second comptroller and fourth auditor of the treasury the following statement fully explains the irregularities charged and to whom the blame should attach. First of all, in order to explain the clothing transactions, it is necessary to set forth the mode in which articles for the marine corps are purchased. When ciothing is required, an estimate of the Fisher, a colored school teacher of Misbasis an estimate is made out and the material necessary to make the several garments, for which requisitions have been previously made, is purchased by | Cincinnati to Washington. the quartermaster, Major Slack. Afte the materials are purchased, the firm of C. C. Barnum & Brothers, of New York, are given the same to make up into clothing. The bills of Barnum & Brothers for this service are paid by Major Slack; but before he makes any payment the following course is necessary to be pursued by the firm: First, the clothing is inspected to accertain that the garments charged for have been actually made. This duty has heretofore devolved upon Captain Maddox, stationed at Philadelphia. After he makes the inspection and gives a certificate of the same to the firm, they, in turn, present the bill to Captain Mad dox, accompanied by his inspection certificate. Then Captain Maddox approves the bill, leaving the amount to be paid blank. The papers are then forwarded to General Zeilin, commandant of the corps, who also approves the bills and sends them to Major Slack, who computes the cost at the contract price, fills up the blank amount and makes the necessary payments. By some means Barnum & Brother ascertained that the amount of the bills which they had made out in blank were not filled up by Captain Maddox, the inspecting officer in Philadelphia. Some time ago they resolved on a bold move. They made a bill out which would cover twenty-three thousand dollars for clothing which they had not manufactured. It was sent to

The allors on the Mistletoe were in the act of dipping their flag in honor of the ueen, when the cry was raised that the royal yacht was running down the Misdetre. Great excitement austral, and efforts were made to avoid a collision but it was too late; the Mistletoe was struck on the starboard side, abreast of pietely over her, lesing her own bowsprit and cutwater. It is impossible to describe the scene on board the vessels. The queen witnessed the collision from the deck of the Alberta. She was deeply agilated, wringing her bands in dread ful suspense. Every effort is said to have been made to save the party on the Mistletos, which was rapidly sink ing. Several of the rescued were severely injured. The damage to the Mistleto was so serious that she sank in a few minutes, carrying with her a lady and report of the accident appears in the Court Circular this evening: "When which struck her, and she went down in a few minutes. The queen, though injured. Her majesty spoke to Miss Peel, the lady who was saved, and made constant inquiries after those who were wounded. On reaching Gosport she no efforts in behalf of the sufferers, and to pay every attention to their wants."
